EDUCATION

Indian Institute of Information Technology, Una   *Dec 2020 - July 2024*
B.Tech in Computer Science and Engineering

Indus Valley Public School   *Apr 2017 - Feb 2019*

TECHNICAL SKILLS

Programming: C++, JavaScript
Software & Tools: **Back End:** Node.js, Express.js, EJS, MongoDb
                          Front End: Html5, CSS, SCSS, JavaScript, ReactJS, Bootstrap
                          Others: Git, GitHub

PROJECTS (ALL AVAILABLE IN GITHUB)

ClassTime

https://whispering-ocean-56973.herokuapp.com/
- This was web app I created for my class so that they can join google meet at correct time without looking into time table.
- I had used express.js and EJS templeting.
- Every time who open this app it will redirect you to respective class in 5 sec.

TodoList

https://immense-taiga-91005.herokuapp.com/
- When I was learning Web development so there was challenge for making todolist. The css file was already given and i just wrote back-end code. I don't have copy write for this todolist but I know it's working and I coded it.
- This is simple todolist app you can add items ,you can delete them. We can create new todolist by entering new name to route. Example: https://immense-taiga-91005.herokuapp.com/newtolist
- The technology used in this are Express.js, EJS, MongoDb.

Admission Portal

https://admissionfront.herokuapp.com/
- I am currently working on my admission portal project.
-In this a user has to register and then login to account after that he can start filling his/her application then that application will be sent to admin with all details and document attached by user.
- The technology used are React, Node mailer, Axios, Express.js, MongoDb

WORK EXPERIENCE

TechSnap   *July 2021 - Aug 2021 Front-end Developer*
- As a Front end Developer I developed some pages like Contact Us, UX design, carousel. These page are good looking and responsive as well.
- I have fixed their pages which were not responsive. I have created responsive footer for their website.
- During my internship I have learned how to mange time with the given work.

ACHIEVEMENTS

CodeChef: Max Rating -1608 (3 Star)

INTEREST

- Competitive Coding

- Web Devlopment
